Meghan Markle's 'ageless' high school prom photo has wowed royal fans

Lauren Clark, Yahoo Style UK · December 16, 2019

Royal fans can't believe how little Meghan Markle has aged since her school days (Image: Getty)

It may have been taken 22 years ago - but royal fans say Meghan Markle still looks exactly the same as she does in an unearthed school dance photo.

An old snap of the Duchess of Sussex, now 38, showing her as a teenager has resurfaced on Instagram.

The image - taken in 1997 - shows Prince Harry's future wife, aged 16, posing with her then-boyfriend Luis Segura.

She wears a sleek black dress with a choker, and wore her hair in an up-do similar to the style she regularly sports on engagements.

The young couple can be seen beaming as they stand in front of a Christmas tree.

At the time, Meghan was attending Immaculate Heart High School.

The caption, accompanying the picture online, reads: "16 year old Meghan Markle (poses) with her first boyfriend Luis Segura at a high school Christmas dance in 1997".

Since being shared, the post has received more than 63,000 'likes' - and many social media users were amazed at how little the Duchess appears to have aged.

1/8 High-School Throwback.
Markle's yearbook picture was circulated widely last week, after news of her relationship with Harry broke. Meanwhile, Kate Cady is one year younger than Markle) was probably about the same age, when this shot was taken. (The way Kate has that jacket draped casually across her back is downright inspirational.)

These Rare Meghan Markle Yearbook Photos Prove She's Always Been Royal

BY CHRISTOPHER ROSA
NOVEMBER 30, 2017 12:22 PM

It seems like Meghan Markle is everywhere right now—because she kind of is. The former *Suits* actress announced her engagement to Prince Harry earlier this week, and people have been obsessing over her ever since. Well, actually, they've been enamored for longer than that: After news of Markle and Prince Harry dating broke in October 2016, she's been a constant tabloid figure. The actual engagement has certainly upped the ante, though, because it makes things official. She's *really* going to be a full-fledged royal, people!

But if you know anything about Markle's past, then you shouldn't be surprised. Markle's been destined for royalty ever since her high school days. She was homecoming queen, after all, and her yearbook photos prove she's always had that crown-jewel spark. Take a look at these rare throwback pics and see so for yourself.

Have you ever seen a more glamorous yearbook headshot than this? Where the hell was her crown?

Markle may've always been regal, but her knowledge of the Royal Family was minimal before she met Prince Harry. "Because I'm from the States, you don't grow up with the same understanding of the Royal Family," she said in her first sit-down [interview with Prince Harry on Monday](#). "While I now understand very clearly there's a global interest there, I didn't know much about [Prince Harry]."

Markle and Prince Harry will tie the knot next spring at St George's Chapel, Windsor Castle.
